Dear FCC,

2000c

I am writting a letter to you and then I would like to explain it to you about FCC's plan.

Yes, they impact me and our deaf people a little bit. Then I read it thru FCC. I seem that they tried to cut all providers vrs, etc. Of course we are panic a little bit because they threat to stop vrs soon. Why? What about the hearing people? Well they really don't care about us? I love to save my vrs for sure because it is key. So I can connect anyone or my family or friends or Dr. or hospital thru vrs. It is very important to use it everyday because we are deaf. Depend vrs all the times. If they decide to stop using our vrs, we can't calling. It is wrong!!! Not fair to us because the hearing peoples can calling anytime without any problem. If anyone get bad sick, they can't calling the an ambulance. You can imagine??? Yes, I complain about FCC's plan because they tried to stop letting us to call thru vrs. I can't understand your problem. I am frustrating is FCC right now. You should think twice before you decide to keep our vrs.

Thanks

To FCC, 2000C

I love to use Sorenson  
Videophone to my deaf friends  
all the times. I also call  
interpreters to call my family  
sometimes. I'm deaf all my life.

Please save Sorenson Videophone  
for all the deaf. It's important.

Sincerely,

EDNA WILLIAMS

CG Docket Nos. 03-123 and 10-51

I am writing to provide my comments on the FCC's Public Notice on the "Structure and practices of the video relay service (VRS) program and on proposed VRS compensation rates."

I am deaf and VRS is how I stay in touch with my family and friends who are not deaf. I'm sure hearing people don't think about what it means to be able to pick up the phone and call anyone any time or anywhere they want. But for me, this means everything. VRS has changed my life.

Save My VRS

Federal Communication Commission

9300 East Hampton Drive,

Capital Heights, MD 20743

Re; Pursuant to Sections 1.415 and 1.419 of the Commissioner's Rules, 47 C.F.R  
Reference CG Docket Nos. 03-123 and 10-51

The FCC is to take away needed Functions of, Video Relay Service Phone? They already took the direct number away; this made it so I can't; call Direct Video Phone to Video Phone: Now Relay Service; is always required! I can't make Private calls. These changes will endanger my safety and that of my husband; Gene; he's going blind. He can't use hand signs as he can't see their hands, I am Profound Deaf; some medications take my voice for a time, once for 1 & 1/2 Years. If you make these proposed cuts, we won't be safe in our home. If I need an Ambulance or Police, My husband may not be able to get Help for me & I may not be able to get help for him; we already have a severe communications gap, at the times I can't talk to each other.

NOV 19 2012

11-9-2012 FCC Mail Room

To: Federal Communications Commission

Hey, I heard about the news that all of you (FCC) thinks about stop with some of VRS & another services. Why did you think about stop it for?

All of you did passed laws abt VRS & another things last year or 2 years ago but now you can't doing that again. VRS & another

services have rights for deaf & hard of hearing to use it that all of you accepted this services since when it starts to now.

Now how come all of you might change minds about it? For deaf & hard of hearing & VRS have rights equal from hearing people used phone. How can we deaf & hard of hearing can communication with business, 911, friends, families, & VRS for the right? It's the best ever than tty that costs you so much money compare to VP (Video phones) was so easy for doctors, friends, families, Business, & VRS through the phone to communicate that we still pay for it on the phone bills, anyway.

Did you all going to see what VRS Services & another Services of Purple & others at VRS Service Center yet? What's your answers? Thanks.

Let me explain to all of you  
that VRS Services are the Greatest & Best  
ever in our life better than write  
letters or tty in a long times ago.  
All of you can call any of deaf  
& hard of hearing through VRS it's  
easy for you to communicate.  
Did you ever call any one of it?  
Look all of you yourselves & better  
start think about it?!? Thanks...

I just was very } Thanks,  
concerning abt it. } Shelly Eagle  
It was very important for all of us & all of you.

2695 Brentwood Dr.

Coopersburg, Pa. 18036

\*my up#(484) 866 8401 (you can call me ~~anytime~~ <sup>you are welcome</sup>.)

We have rights equal to use it  
same as with hearings & all of you on  
the phones & ups....

Please better start think about it?  
Please look yourselves for all of  
us of deaf & hard of hearing & VRS.  
If you want to ask any of us all  
you may ask all of us in every-  
where any of questions & look  
yourselves at VRS Centers to get  
know more about this Services  
& VRS. If you stop it anytime  
we won't take any of tty or  
phone calls without Videophone  
& VRS Centers... We have right  
to have this services for us to  
use it & VRS Providers that we  
does have laws passed for a  
long times. It's not fair for  
hearing people have phones to  
communicate, & what about all of  
us deaf & hard of hearing how to  
communciate on ups if without  
it it'll be hard for us w/out  
it & with VRS Providers for business,  
friends, families, doctors, & etc too.  
~~And~~ And with all of you too. And  
it's not fair for hearing people have  
webcam to commincate & cellphones too.  
We deaf & ~~deaf~~ hard of hearing have  
rights to use it too. If you  
stop ~~it~~ Some of VRS Services how  
can we use it to communicate!!  
It'll be tough for all of you  
if we doesn't use it. All of you  
will be very sorry for all of us.
